

Customers

Customers Tab

Overview

The Customers tab lists all the customers in Fab Pack. Customer details can be viewed by either selecting a Customer and double clicking or clicking on the Edit button at the bottom of the tab.

Column Name Description

Account Code: Customer Account Code.

Customer: Customer name.

You can add new customers by clicking on the Add button at the bottom of the Customers tab. The only fields to be initially concerned with are Account Code and Customers Name. It is not mandatory to use an Account Code. After creating the customer you can then edit more details, such as contact details by

clicking on the Edit button.
